# Sustainable Communities; Sustainable Construction

## A Networking Reception for Steel Supporters

**Join us for an interactive cocktail reception as we**

- savor sustainably sourced appetizers
- build children's bicycles
- enjoy a cash bar
- celebrate steel construction

**A special Sustainable Steel presentation by:**

**Janice Schwartz**
Environmental Specialist
Gerdau Manitoba

GERDAU

**All bike-building skill levels welcome. Bicycles will be donated to WRENCH, a Winnipeg non-profit group.**

http://thewrench.ca/

the W.R.E.N.C.H. Winnipeg Repair Education and Cycling Hub

**Canadian Museum for Human Rights**

**Thursday April 19th, 5-8 pm**

**Tickets $50 each, or a team of 8 for $350**

**Click here to purchase tickets**

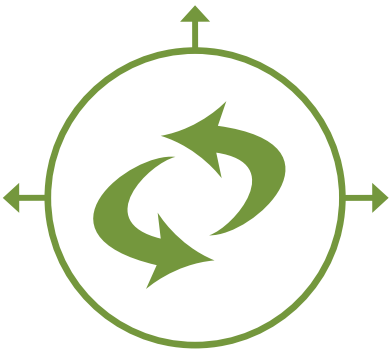
# GET THE REAL STEEL FACTS!

UP TO
**93%**
RECYCLED CONTENT IN STEEL CONSTRUCTION

OVER
**29%**
REDUCTION IN STEEL INDUSTRY ENERGY USE OVER THE PAST TWO DECADES



MORE THAN
**98%**
OF STEEL IN CONSTRUCTION CAN BE REUSED

## Reduce:

Steel reduces the building weight and footprint by accommodating longer spans with smaller member sections.

## Reuse:

Designers can reuse elements of a steel structure on-site or have it dismantled and rebuilt elsewhere without the loss of the structure's basic properties.

## Recycle:

Steel is the most recycled material on the planet. At the end of a building's life, 100% of the steel frame can be recycled or reused.
