Benefit Partners

Your Employee's Mental Health is Important!

Now you can assist your employees with these challenges.

The economic burden of mental illness in Canada is estimated at \$51 billion per year.¹

As a valued member of the Canadian Institute of Steel Construction, the CISC Big Company Advantage™ program, managed by Benefit Partners, offers your organization a strategic approach to managing employee well-being at preferred rates. Benefit Partners, a People Corporation company, can help your organization control the cost of mental illness through targeted mental health intervention, while enabling your employees to access the care they need.

People Connect offers the resources, information and training your company needs to create a supportive and psychologically safe work environment that promotes mental well-being, keeping your workforce resilient and competitive.

Launch **People Connect** today and make a positive difference in the lives of your employees.
