**TURNKEY.
EFFORTLESS.
UNOBTRUSIVE.**

CAST CONNEX® Diablo™ Bolted Splice (DBS) is a cast steel fitting that enables unobtrusive field bolted splices in circular hollow structural section (HSS) members. The DBS splice connectors are offered with thin-gauge cover plates to conceal the splice, or it may be left uncovered.

Constructability Elevated

- Available in sizes to fit a range of HSS members
- Affordable enough to be used repetitiously
- Designed specifically for AESS applications making them easy for fabricators to work with
- Pre-engineered solution
