

## **Project Submission Criteria and Eligibility Requirements**

A project may be submitted in a maximum of two of the following categories:

- 1) Bridge Award (not including pedestrian bridges or walkways)
- 2) Engineering Award
- 3) Architectural Award
- 4) Innovation & Sustainability Award
- 5) Cold Formed Steel Award

### **Bridge Award**

Highlighting temporary or permanent steel bridge projects where innovative, ingenious, creative and practical solutions, by owners, designers and constructors, provided solutions to real world challenges and needs. Factors may include environmental, speed of construction, durability, sustainability, cost, site conditions and span length (category excludes pedestrian bridges and steel walkways).

### **Engineering Award**

Highlighting the engineering design of steel buildings and structures in which engineering considerations, ingenuity, creativity and innovation predominantly influenced the design and construction of the structure.

### **Architectural Award**

Highlighting the architectural design of steel buildings and structures in which architectural considerations, ingenuity, creativity and innovation predominantly influenced the design of the structure.

## Innovation & Sustainability Award

Highlighting and rewarding a company that has provided exceptional leadership in advancing the steel construction industry through innovative design or innovative new products, investments in technology, the improvement of sustainability of steel structures, or safety.

## Cold Formed Steel Award

Highlighting projects where the selection of cold formed steel was chosen to solve engineering, architectural or constructability challenges. Consideration will be given to engineering and architectural ingenuity, creativity and innovation.

## Eligibility criteria for project submissions

1. Project located in BC
  - a. Steel Fabricator must be the CISC member, and
  - b. At least 1 of the following categories must be from BC:
    - i. Steel Fabricator
    - ii. Consulting Engineer
    - iii. Steel Erector, or
    - iv. Steel Detailer
2. Project located outside of BC – Steel Fabricator must be a CISC BC region member
3. The Innovation & Sustainability Award is available to CISC BC Members and Associates only
4. All submitted projects must be completed between **January 01, 2018 – December 31, 2022**
5. A project may only be submitted into a maximum of 2 categories

## How to submit a project:

Submit a project on the following link <https://www.judgify.me/2023CISCBCSteelAwards> by registering and submitting the online registration form with all the mandatory information by the deadline of **February 17, 2023 (midnight Pacific (BC) time)\*\***.

1. Before you start the application and upload process, please ensure you have all the information and pictures you intent to submit available. There is a maximum folder size of 50 MB.

Note the following mandatory information will be required:

- Name of the Project
- Location of the Project
- The members of the project team
  - Owner
  - Architect
  - Engineer
  - Fabricator
  - Detailer
  - Erector
- Description of the project (maximum 500 words)
  - Explanation of the reasons for choosing a steel frame

- Highlights of each – the architectural, technical, sustainable, innovative, or particular interest aspects
  - A minimum of five colour photos (JPEG format – high resolution), showing the structure and architectural aspects of the project. These images will be used to
    - Present the project at the Awards Ceremony
    - To produce written and online material, posters, panels, etc.
    - For the presentation of the winners in the Advantage Steel Magazine and for any publication on the CISC website or Newsletter
    - If photo credits are required, please specify
2. Click on the above link to register. The registration section will ask specific information on the submitter who will be the key contact for the specific entry project, as well as basic project information (Project name, location, category and brief description). After complete click on the Submit button.
  3. After your profile has been set up, you will be directed to a page to enter and upload the project information and pictures. After complete click on Submit button.
  4. After you have completed the upload process (step 3), you will receive a confirmation email.
  5. You may go back at any time to update your project submission (until the deadline of February 17, 2023).
  6. By submitting the project, you and the project team have granted permission to use all information for any CISC promotional and marketing purposes.
  7. The submitter agrees they are submitting on behalf and in the name of all project members/stakeholders.
  8. To avoid rejection of submissions, please ensure to complete all required information.
  9. There is no limit to the number of projects submitted.

## Lifetime Achievement Award

Lifetime Achievement Award honours individuals who have made significant contributions to the development and success of the Canadian steel construction industry and the CISC over a sustained period of years. This award recognizes individuals participating within the structural steel design, fabrication, construction, and academic communities. Lifetime Achievement Award Nominee must be an employee or retiree of a CISC BC Region Member or Associate.

Submit your nomination on the following link <https://www.judgify.me/LifetimeAchievementBC2023>

The nominations will be accepted until **February 17, 2023(midnight Pacific (BC) time)\*\***.

**\*\*Please note, nominations won't be accepted after this date.**

## Judging

Winning projects are selected by a Jury.

Jury members shall be chosen from: architects, structural engineers, academia, media, associations or other, related to construction, who have not participated in the projects entered.

Jury decisions are final.
